

Tubes and Rods

VOLTIS® and ISOVAL®

Round rolled and round moulded tubes and rods

VOLTIS® Hp TU 21	Round rolled phenolic paper laminate tube for mechanical and electrical applications
VOLTIS® Hgw TU 21	Round rolled phenolic fine weave cotton cloth tube with high toughness and excellent machinability for mechanical applications
VOLTIS® Hgw TU 22	Round rolled phenolic cotton cloth tube with high toughness for mechanical applications
VOLTIS® Hgw RO 41	Round molded phenolic fine weave cotton cloth rod with high toughness and excellent machinability for mechanical applications
VOLTIS® Hgw RO 42	Round molded phenolic cotton fabric laminate rod with high toughness for mechanical applications
ISOVAL® TU 21/FR4	Round rolled epoxy glass fabric tube with high strength for mechanical and electrical applications
ISOVAL® TU 22	Round rolled epoxy glass fabric tube with high strength even at elevated temperature for mechanical and electrical applications
